

**The original**

Users really benefit from the speed, convenience and flexibility of battery powered applicators.

Typically used in industries including construction and refurbishment through to marine and automotive where the controlled and consistent application of material is essential, even when using highest viscosity sealants such as urethanes.

# Electraflow™

- Effortless operation
- Long service life
- Variable speed control
- Non-drip function
- Overload shut-off

# COX FOR PROFESSIONAL POWER

The Electraflow is typically used in industries including **construction** and **refurbishment** through to **marine** and **automotive** where the controlled and consistent application of material is essential, even when using highest viscosity sealants such as urethanes. Cordless applicators can be used in any location and offer complete working flexibility. We offer a wide range of models for single and dual component products.

## Medium to high viscosity quality applicators for single and dual component applications

Electraflow can be used in any location offering complete working flexibility, providing users with the convenience and ease of battery power to deliver a smooth, consistent flow of higher viscosity material from the applicator.

# COX FOR THE TIMBER FLOOR PROFESSIONAL

The new Cox FloorFix hand operated applicator is available in battery and pneumatically powered versions. Designed for low to medium viscosity adhesives of the type used in the flooring industry for fixing solid and wooden flooring.

## CONTROLLED FAST APPLICATION WITH COX POWER

Designed to use upright, operators walk Floorfix across the surface applying the flooring adhesive as they move, lowering application time down by as much as 30% over traditional methods.

# FloorFix<sup>TM</sup>

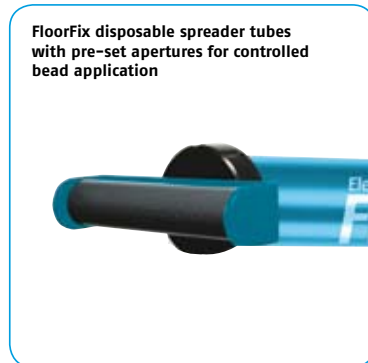

## NEW FOR 2012!

### FloorFix

Powered by the highly successful professional battery and pneumatic engines of Electraflow and Airflow, the Cox FloorFix provides the ideal solution for professional application of floor adhesives. Its disposable spreader tubes are available in widths of 190mm, 300mm and 400mm.

Automatic reverse, allowing the user to remove plunger pressure when the trigger is released

FloorFix disposable spreader tubes with pre-set apertures for controlled bead application

Power/speed regulator located on the rear of the applicator to control the output flow of the adhesive

Wide range of adhesives available suitable for the Floorfix range

**30%** quicker and easier than traditional methods

# THE NEW COX FLOOR ADHESIVE RANGE OF APPLICATORS

Available in two power versions, the new range of floor adhesive applicators, Cox FloorFix are manufactured in the UK to the renowned high standards Cox are known for.

## Production benefits across the range:

- Designed and manufactured in the UK
- Ergonomically designed handle, speed trigger and trigger lock
- Automatic non-drip trigger mechanism
- Overload shut-off
- Full range of accessories and spares
- No cleaning required
- Disposable spreader tubes for greater productivity

## FloorFix™

- Barrel length 800mm

1.8ltr 3.0kN

also available in pneumatic version

1.8ltr 1.5kN

Available in  
three head widths:  
190mm, 300mm & 400mm

# COX ACCESSORIES FOR PROFESSIONALS

From carry cases and extra power packs to accessories to reduce weight by clipping the battery pack to your belt and handles to maximise accuracy, Electraflow has everything the professional could need.

The widest range of accessories available to ensure you maximise efficiency and accuracy

**Electraflow**<sup>TM</sup>  
Accessories

Clear barrel for sachets

Additional charger and batteries. Compatible with power supplies worldwide

Optional battery belt clip to reduce arm fatigue and increase productivity

Additional handle for Sachet/Combi model for increased control

# Need something even more powerful?

Our Powerpush™ range offers you heavy duty twin driven power for mixing low and high viscosity products.
